Welcome to Florida's Heartland!

Heartland Homes of Florida is proud of its commitment to building the best homes at prices unheard of in this part of Florida. With over 100 years of combined experience, the Heartland team has created a unique opportunity for homeowners to enjoy the Florida sunshine, relaxed country living, and nearby amenities – all at an extremely affordable price.

We have carefully crafted our houses to ensure you have every modern convenience without wasting any of your hard-earned money. You'll find that we include many features as "standard" that other builders would consider to be "upgrades".

Our homes are eligible for zero-down USDA financing and are built on lots near the Port LaBelle Marina. They are designed to provide you with many amenities previously regarded as "upgrades". Nine different models are available and all include granite counters, wood cabinetry, and a full appliance package. They are also designed to complement today's active lifestyles.

The homes are built on existing lots, so development costs are kept to a minimum and the savings are passed on to the homeowner. Since they aren't being built using the typical "community" process, there aren't any homeowner's association fees to add to the cost. City water is available and lots are generally 1/4 to 1/3 acre in size.

Situated along the Caloosahatchee River, Port LaBelle is part of the Florida Heartland, an area famous for its breathtaking scenery and laid-back, country lifestyle. Yet it's less than an hour's drive to the Gulf of Mexico and less than two hours from the beaches of the Atlantic Ocean. You can enjoy a friendly community, outdoor leisure, and year-round sunshine and still be a short drive from world-class beaches, shopping, dining, and amenities.

We invite you to check out our floor plans, learn more about Florida's Heartland and all it has to offer, design your own home in our Customizer, and stop by for a visit.

Don't forget to check out scholarship opportunities for LaBelle High School graduates, including a two-year tuition and books scholarship to Florida SouthWestern State College!

Have questions? You can visit us online, follow us on Facebook, sign up for our newsletter, or just give us a good old-fashioned phone call. We're always happy to help!

We're sure you'll agree that Florida's Heartland – and Heartland Homes – is the right move for you!

The Home Buying Process

Let Us Take Care of Everything Through This Process

Financing & Home Selection

- ✓ Get Pre Qualified with Heartland's preferred lender
- ✓ Select the home that fits your budget
- ✓ Select the homesite that fits your family's needs
- ✓ Turn in required paperwork to lender for full approval

Permitting & Construction

- ✓ Lot staking, clearing, and home layout on property
- ✓ Homeowner makes home selections
- ✓ Permitting begins - driveway, utilities, septic, building
- ✓ Building permit is received and construction begins
- ✓ Homeowner has mid-construction walk-through of home

Closing & Move-In

- ✓ Homeowner has home orientation and walk-through
- ✓ Closing of home is scheduled
- ✓ Warranty of home

I just have to say that you have some real nice people up there! Thank you!
Marti Alvarez

hello there...

Thank you for all your work in constructing our home and being with us on this important journey.
Eloise Guerrero & Cresencio Soto

Great people to deal with!
Larry Brown

Thank You

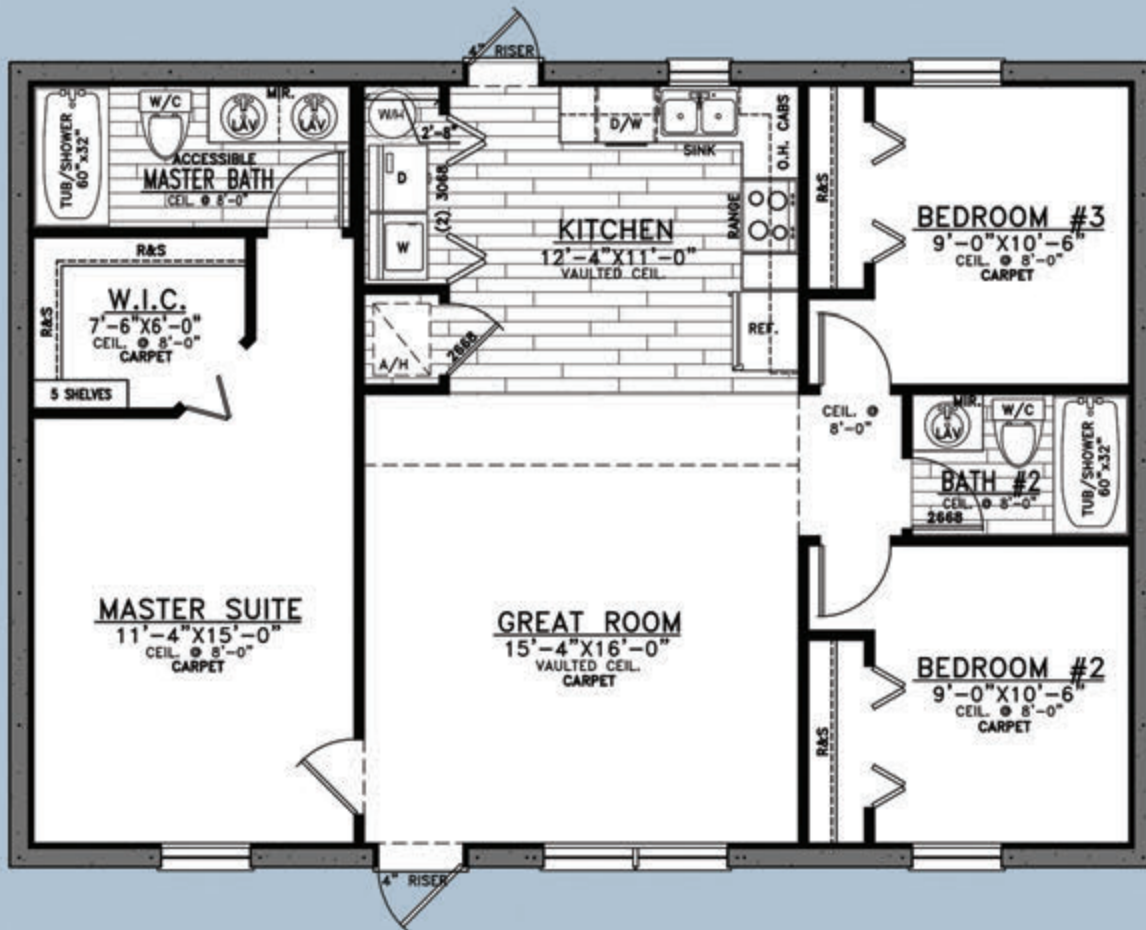

Our experience is one we would recommend to anyone.
- The Rodriguez Family -

Kudos to the Heartland Homes team for a well built and beautiful home we plan to enjoy for many years.

A vibrant, artistic rendering of a single-story house. The house has a light yellow or cream-colored stucco exterior and a dark brown, shingled gabled roof. On the left side of the front facade, there is a single-pane window with a dark frame. In the center, there is a four-pane window, also with a dark frame. To the right of the four-pane window is a white, solid-colored front door. Further to the right is a large, white garage door with a grid pattern of rectangular panels. Two small, black, lantern-style light fixtures are mounted on the wall, one on either side of the garage door. A small, dark, arched decorative element is positioned above the front door. The house is set on a green lawn. In front of the house, there is a concrete walkway leading to the front door and a concrete driveway leading to the garage. A bed of colorful flowers, including pink, purple, and blue blooms, is planted along the base of the house. Several palm trees are scattered around the property: a large one on the left, a medium one on the right, and a small one in the background on the far left. The sky is a mix of light blue and pinkish-orange, suggesting a sunset or sunrise. A few small white birds are visible in the sky.
